Before Beginning Installation	07-08
Installation.	09-10
Camera Specifications	11
Warranty.	12
Disclaimer.	13

NOTE!

Please read all of the installation instructions carefully before installing the product. Improper installation will void manufacturer's warranty.

Congratulations on purchasing a Rear View Backup Camera System!

With this manual you will be able to properly install and operate the unit.

The Backup Camera System is intended to be installed as a supplement aid to your standard rear view mirror that already exists in your vehicle. The Backup Camera System should not be used as a substitute for the standard rear view mirror or for any other mirror that exists in your vehicle.

In some jurisdictions, it is unlawful for a person to drive a motor vehicle equipped with a TV viewer or screen located forward of the back of the driver's seat or in any location that is visible, directly or indirectly, to the driver while operating the vehicle.

Please read the entire manual and follow the instructions and warnings carefully. Failure to do so can cause serious damage and/or injury, including loss of life. Be sure to obey all applicable local traffic and motor vehicle regulations as it pertains to this product. Improper installation will void manufacturer's warranty.

USAGE:

- The Rear View Camera System is designed to help the driver safely detect people and/or objects helping to avoid damage or injury. However, you the driver, must use it properly. Use of this system is not a substitute for safe, proper or legal driving.
- Never back up while looking at the monitor alone. You should always check behind and around the vehicle when backing up, in the same way as you would if the vehicle did not have the Rear View Camera System. If you back up while looking only at the monitor, you may cause damage or injury. Always back up slowly.
- The Rear View Camera System is not intended for use during extensive back-up maneuvers or backing into cross traffic or pedestrian walkways.
- Please, always remember, the area displayed by the Rear View Camera System is limited. It does not display the entire panorama that is behind you.

INSTALLATION:

- Electric shock or product malfunction may occur if this product is installed incorrectly.
- Use this product within the voltage range specified. Failure to do so can cause electronic shock or product malfunction.
- Take special care when cleaning the monitor.
- Make sure to firmly affix the product before use.
- If smoke or a burning smell is detected, disconnect the system immediately.
- Where the power cable may touch a metal case, cover the cable with friction tape. A short circuit or disconnected wire may cause a fire.
- While installing the Rear View System be careful with the wire positioning in order to avoid wire damage.
- The Rear View System should only be used when the vehicle is in reverse.
- Do not watch movies or operate the monitor while driving; as it may cause an accident.
- Do not install the monitor where it may obstruct drivers view or obstruct an air bag device.
- Dropping the unit may cause possible mechanical failure.

If you have questions about this product, contact:

***Rear View Safety
1797 Atlantic Avenue

Tel: 1.800.764.1028***

IN NO EVENT SHALL SELLER OR MANUFACTURER BE
LIABLE FOR ANY DIRECT OR CONSEQUENTIAL DAMAGES OF
ANY NATURE, OR LOSSES OR EXPENSES RESULTING FROM
ANY DEFECTIVE PRODUCT OR THE USE OF ANY PRODUCT.

Before drilling please check that no cable or wiring is on the other side of the wall. Please clamp all wires securely to reduce the possibility of them being damaged while vehicle is in use. Keep all cables away from hot/moving parts and electrical noisy components.

We recommend doing a benchmark test before installation to insure that all components are working properly.

Warning!

- 1. Do not watch the video while driving unless you are monitoring the rear view camera display.*

Note: In order for this camera to function properly, you must use a radio harness and OBD genie. Choose your connection type based on the equipment you need.

RCA Installation

Remove the spare tire and attach the camera to the spare tire carrier. Run the cable through the rear vent to the inside of the car. Remove the two plastic covers on tailgate to receive the camera cable.

Remove the panels on the passenger side rear cargo area. Connect cable you ran through the tailgate to the red/yellow adaptor and then to the long yellow cable. Remove panels and run the yellow cable along the carpet closest to the rear/front door. Run the yellow cable to the kick panel lower level left passenger side.

The next step is removing the head unit. There will be 4 screws on the head unit that need to be removed.

Note: You will need to purchase an ALPINE- ALP-HRN-CAMCH CAMERA INPUT HARNESS to complete this install.

Plug this input harness into the back of compatible radios (2007-up) 430ren-430rbz-430n-rhb-730n-rer-730n-rhr Chrysler factory head units. Once plugged run the video cable down to the kick panel and connect the video cable that you just ran from the rear camera (With this install you do not need to connect the red wires on both ends of the RCA video cable just tape them).

The last step is to hook up power. Remove the rear passenger brake light and run the power cable down the body grommet. Connect the black to the black and the red to the white/grey wire (2017 Jeep Wrangler). Zip tie or tape all connections to secure system. Put the panels and spare tire back on. The final step is to have a Chrysler Jeep Technician program the head unit so it recognizes the camera.

Camera Specifications

Viewing Angle	170°
Pixel Resolution	976 x 496
Operating Current	≤75MA
TV System	NTSC
Power Supply	8-26V
Video Output	1.0vp-p, 75Ω
Operating Temperature	−30°C ~ +80°C
Storage Temperature	−30°C ~ +80°C
Minimum Illumination	<0.1 Lux
Waterproof Rating	IP68

ONE YEAR WARRANTY

REAR VIEW SAFETY, INC. WARRANTS THIS PRODUCT AGAINST MATERIAL DEFECTS FOR A PERIOD OF ONE YEAR FROM DATE OF PURCHASE. WE RESERVE THE RIGHT TO REPAIR OR REPLACE ANY SUCH DEFECTIVE UNIT AT OUR SOLE DISCRETION. REAR VIEW SAFETY, INC. IS NOT RESPONSIBLE FOR A DEFECT IN THE SYSTEM AS A RESULT OF MISUSE, IMPROPER INSTALLATION, DAMAGE OR MISHANDLING OF THE ELECTRONIC COMPONENTS. REAR VIEW SAFETY, INC.
