Wireless Adaptor System

HD Waterproof Wireless Transmitter

RVS-DS65

Use the RVS-DS65 to make any CMOS camera wireless.

This wireless transmitter allows you to add any of our CMOS cameras to The SimpleSight™ Series Wireless Backup Camera System monitors (RVS-155W-HD, RVS-255W-HD, RVS-355W-HD RVS-4W-HD). The RVS-DS65 works at a range of 100'.

The transmitter is waterproof with an IP67 rating, allowing you to install it outside your vehicle.
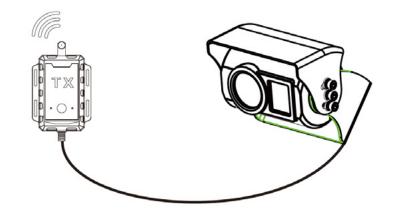

Camera Installation Guide

1. Connect transmitter to camera

2. Connect transmitter to power (steady red light will indicate power is on)

3. Connect camera to power

4. Turn on the monitor

5. Press "PAIR" and hold for 3 seconds (red light will flash slowly as device enters pairing state)

NOTE: Pairing is completed once red light stops flashing and green light turns on
