Model # RVS-AC600

Rear View Safety, Inc. © 2014

# Introduction

## Warning

1. This is a high precision product. Do not let it fall or get crushed.
2. Do not expose to strong, magnetic objects and electrical motors. Avoid strong radio waves. Strong magnetic fields may cause the product to break down or cause damage to images and sounds.
3. Never leave the product exposed to high temperatures and direct sunlight.
4. Please choose branded MicroSD cards. Neutral cards are not guaranteed to work normally.
5. Do not place Micro SD cards near strong magnetic objects to avoid data loss.
6. In case of overheating, smoke, or unpleasant smell in the process of charging, unplug your device immediately to prevent fire hazard.
7. While it is charging, keep the product out of children's reach. Power line may cause children accidental suffocation or electric shock.
8. Keep the device in cool, dry and dust-proof places.

## Preface

This product is a high-definition digital motion video recording device tailored to market demand. It has a variety of industry-leading features including digital video recording, photo shooting, audio recording, video display and a detachable battery, which makes it perfect for vehicle data recording, photo-shooting, outdoor sports, home security, deep-water probing, etc., allowing you to film anytime, anywhere. It has a variety of patents.

Multipurpose

## Product Features

- ▶ A water-resistant casing that allows you to film fascinating water sports; water-resistant up to 30 meters under water
- ▶ High definition screen that displays and replays fascinating videos recorded
- ▶ Detachable battery that is easy to replace and prolongs your camera's service life
- ▶ Video recording while charging
- ▶ Video recording with battery
- ▶ 12-megapixel HD wide-angle lens
- ▶ HDMI HD output
- ▶ Web camera
- ▶ Supports storage cards up to 32GB
- ▶ Multiple video recording formats: 1080P/720P
- ▶ Records in MOV format
- ▶ Multiple photo shooting modes: Single Shot, Burst Mode
- ▶ Video encryption enabled

# Functions

## 1. Inserting Micro SD Card

Note: Please choose branded Micro SD card and format it on computer before use. Neutral cards are not guaranteed to work normally.

## 2. Installing and Removing Batteries

A. Press on battery cap to open it.

B. Correctly install battery into camera as indicated by +/- symbols and direction of arrows marked on battery until it's in place.

C. Battery Gauge: Please refer to diagram.

D. Remove Battery: Open cap to take battery out.

## 3. Charging

A. Charging can be done by either connecting AC600 to computer or power adaptor.

B. AC600 can record video while charging (Switch into Vehicle-mounted Mode in "Menu")

C. Charging of AC600 can be done even when it's powered off.

## 4. Switching Camera On and Off

A. Press and hold power switch for 3 to 5 seconds to turn it on/off.

B. Switch it on and off by turning display screen on and off.

## 5. Mode Switching

Switch between video recording/photo shooting/playback/menu by pressing "Power On-Off" button,

## 6. How to record videos and configure recording settings

### A. Video Recording

Switch to recording mode and there'll be an  icon in the upper left of the screen. Press OK to start recording and the  icon in the upper left corner will start to flash.

Press "OK" again if you want to stop and the icon will disappear.

## B. Photo shooting & Settings

Switch the camera on and press "Mode" to select "Photo shooting Mode", there'll be an icon in the upper left corner of display screen and the camera is in  photo shooting mode. Press "OK" to take photos.

Shooting Pattern: Single shot/Self-timer (2s/5s/10s)/Continuous Shooting

## C. File Storage & Playing

After you are done recording, use a USB cable to export the videos onto a computer to play. Alternatively you can take the Micro SD card out and access the images data with a card reader.

## WiFi Control

The WiFi function is turned off by default. to start the WiFi function, press the up button, the LED display will show "Waiting for WiFi Connection", and the LED will flash orange. To exit WiFi mode, press the "OK" button. With the WiFi mode activated on camera, follow these steps to connect the smartphone with camera:

1. Install the App software to mobile device. The App software is called iSPO Camera.
2. Open the mobile phone's of WiFi settings.
3. From the available WiFi networks, choose the WiFi network called A5-A000001 (Default password: 1234567890)
4. When there is a succesfull connection, camera screen will turn off and camera LED will turn orange.

# Operations

5. Open the App on your device and you will be able to see the camera view from your device's screen. You will be able to control from your device, the camera settings, video and photo functions and will also be able to download footage to your device.

**Note:** The camera can only connect to one device at a time.

## Sport Mode

1. Press "mode" button to enter the setup menu, and then press the "down" button to select sport mode menu, press "OK" key to enter the mode of motion.

2. After entering, the four options are "OFF", "LOW", "MID", "HIGH"

"OFF" Turns off the Sport Mode

"LOW" Good in noisy environments
